Profile

As a BS-CS student at Comsats University Islamabad, Wah Campus, I have gained a solid foundation in programming concepts, data structures, and mobile development using Flutter. I have hands-on experience in Dart, C++, Java, MySQL, and C#, and I am continuously enhancing my skills in building mobile applications.

I am a quick learner with a passion for problem-solving and thrive in collaborative environments. My enthusiasm for learning new technologies and dedication to improving my craft make me eager to contribute to a dynamic development team while further honing my expertise as a Flutter developer.

Employment History

Mobile App Developer Intern at Comsats University Wah, Wah Cantt

June 2024 — August 2024

- Designed and developed a feature-rich shopping app using Flutter, incorporating a sleek and user-friendly interface to enhance the shopping experience.
- Integrated **Firebase** as the backend for real-time database management, ensuring efficient data storage and retrieval.
- Implemented **Stripe payment gateway** to provide secure and seamless payment processing.
- Developed a dynamic catalog featuring categories such as watches, laptops, and mobile phones, with functionalities for product listing, filtering, and detailed views.
- Focused on performance optimization and responsive design to ensure smooth functionality across various devices.
